

FEMA reimburses Taylor \$11,777 for Hurricane Michael expenses

Taylor County is one of 17 entities to receive funding from the Federal Emergency Management Agency (FEMA) for Hurricane Michael, as the federal government reimbursed the local government for \$11,777 in "emergency protective measures" undertaken due to the storm.

According to Taylor County Sheriff's Office (TCSO) - Division of Emergency Management Director Kristy Anderson, Taylor County was reimbursed for the expense of county employees working before, during and after the storm.

"Sandbagging and barricading, debris clearing,

etc. are all included," Anderson said.

FEMA recently approved \$669,789 to the State of Florida to assist 17 eligible applicants with reimbursement for eligible costs of debris removal, emergency protective measures, temporary facilities and permanent repairs for Hurricane Michael under FEMA's Public Assistance Program.

The following projects have been obligated by FEMA to the Florida Division of Emergency Management (FDEM) to help applicants with reimbursement for eligible costs incurred due to Hurricane Michael.

Written comments must be received by the Permitting Authority by close of business (5:00 p.m.) on or before the end of this 14-day period. or to intervene in this proceeding and participate as a party to it. Any subsequent intervention (in a proceeding initiated by another party) will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C.
A petition that disputes the material facts on which the Permitting Authority's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, any email address, telephone number and any facsimile number of the petitioner; the name, address any email address, telephone number, and any facsimile number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of when and how each petitioner received notice of the agency action or proposed decision; (d) A statement of all disputed issues of material fact. If there are none, the petition must so state; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules or statutes the petitioner contends require reversal or modification of the agency's proposed action including an explanation of how the alleged facts relate to the specific rules or statutes; and, (g) A statement of the relief sought by the petitioner, stating precisely the action the petitioner wishes the agency to take with respect to the agency's proposed action. A petition that does not dispute the material facts upon which the Permitting Authority's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C. Because the administrative hearing process is designed to formulate final agency action, the filing of a petition means that the Permitting Authority's final action may be different from the position taken by it in this Public Notice of Intent to Issue Air Permit. Persons whose substantial interests will be affected by any such final decision of the Permitting Authority on the application have the right to petition to become a party to the proceeding, in accordance with the requirements set forth above.
