

# Funding requests to include DMH, fire station

## WISH LISTS

Comments prior to the upcoming 2020 Legislative Session.

While county officials plan to push for funding for Doctors' Memorial Hospital (DMH) and improvements to the Taylor County

Courthouse, Taylor County School Board members were scheduled to meet with Shoaf this week in his local office to discuss a number of specific funding requests, including for transportation, school security and teacher pay.

County commissioners talked over their legislative

requests during a workshop held last week.

County Administrator LaWanda Pemberton began the discussion by noting that officials with the Florida Department of Transportation (FDOT) has asked counties not to submit requests to the legislature for specific earmarks for road projects.

Instead, the agency asked that county officials request the legislature include additional funding for rural paving programs.

According to Pemberton, she was told budget earmarks for road projects did not actually provide additional funding to FDOT, so they had to be covered by the agency's reserves, which

have been depleted going into next year's funding cycle.

Another possible project discussed was a dock for emergency and first responders at Keaton Beach, which had been requested by Taylor County Sheriff Wayne Padgett this summer. In that case, Pemberton said it might be better to pursue a grant for the project instead of a legislative earmark due to the relatively low price tag.
