

CAMP CHERRY LAKE BREAKING GROUND

By SAMANTHA MURRAY
UF/IFAS Communications

Construction is ramping up on the expansion of the recreational pavilion at 4-H Camp Cherry Lake in Madison.

The pavilion expansion is part of a larger, multi-year renovation of the residential camping facility that has served hundreds of youth in the North Florida region each year and is preparing for future service.

These renovations, including the addition of a new classroom facility to the pavilion, were made possible by the generous support of 4-H alumni and advocates, said Stacey Ellison, associate state program leader for Florida 4-H, the youth development program of the University of Florida/IFAS Extension.

“These improvements to the camp will allow us to provide more educational experiences for our campers, especially in the areas of environmental and agricultural sciences. With

the pavilion expansion, we’re excited to see this vision for 4-H Camp Cherry Lake becoming a reality,” Ellison said.

For Morris Steen, a Florida 4-H Foundation board member, Camp Cherry Lake will always be a special place.

Steen joined 4-H at age 10 and camped at Cherry Lake nearly every summer in his youth, later serving as a counselor while a student at the University of Florida.

“It is really heartening to realize construction on the Cherry Lake Camp Pavilion is ready to commence and the benefit to 4-H campers will last for generations to come,” Steen said.

“Its impact on our community is enormous, and who knows the leadership that may emerge because of experiences gained at Cherry Lake. It is an exceptionally positive event for Florida 4-H members!”

In addition to the pavilion, additional improvements

to facilities and cabins are planned to begin in phases as fundraising continues, Ellison said.

UF is investing in a new residence home at Camp Cherry Lake that will house the camp director. The old home has already been demolished, and construction is expected to start soon or shortly after construction has begun on the pavilion.

A ceremonial groundbreaking for the pavilion took place in January, and construction was originally scheduled for fall 2020, after the summer camping session. However, when the coronavirus pandemic led to the suspension of residential camping this year, the renovations were moved up.

Since it opened in 1937, Camp Cherry Lake has hosted thousands of youth.

The 4-H camping program helps youth find confidence and independence in a safe,

fun environment. Campers participate in a range of social and educational activities, from archery to biology to campfire songs.

In addition to Camp Cherry Lake, Florida 4-H operates Camp Timpoochee, located in Niceville, and Camp Cloverleaf, located in Lake Placid. Together all three camps serve youth from across Florida.

Florida 4-H is the land-grant youth development program providing hands-on educational programs and experiences for youth ages 5-18 through a diverse portfolio of project areas.

In Florida, 4-H is administered by University of Florida/IFAS Extension and Florida A&M University.

Want to help Florida’s youth experience camp?

Your support of the 4-H Camping Program provides opportunities for youth to grow as leaders and responsible citizens while fostering the community and support they need.

If you or your organization would like to discuss partnering with 4-H, please contact Cayli Hilton at grow4h@ifas.ufl.edu or (352) 392-5432.

Since it opened in 1937, Camp Cherry Lake has hosted thousands of youth. The 4-H camping program helps youth find confidence and independence in a safe, fun environment.

School District COVID-19 Q&A

DISTRICT Q&A

Continued from page 2

behavior, rewarding relationships, and good citizenship.

Due to COVID-19 and the isolation that many students and families have experienced, Taylor County School will have a focused effort on direct instruction in Social and Emotional Learning to assist students in feeling safe returning to school and making establishing positive relationships with adults and peers as a primary focus. Students and their families will be starting school with a lot of added anxiety. It will be imperative for school staff to look through multiple lenses to view the “whole picture” of what is going on with the student and their families.

WHAT MENTAL WELLNESS SUPPORTS ARE AVAILABLE FOR STUDENTS ON SCHOOL CAMPUS?

District personnel include the school counselor, school psychologist, school social worker and district mental health coordinator.

SCHOOL SANITATION

WILL KIDS BE ALLOWED ON PLAYGROUNDS? IF SO, HOW CAN WE BE SURE THE EQUIPMENT WILL BE PROPERLY SANITIZED?

Yes. The CDC recommends we do not spray disinfectant on outdoor playgrounds. It is not an efficient use of supplies and is not proven to reduce risk of COVID-19 to the public. High-touch surfaces made of plastic or metal, such as grab bars and railings will be cleaned

routinely. Cleaning and disinfection of wooden surfaces (play structures, benches, tables) or ground covers (mulch, sand) is not recommended. Students will be allowed to wash hands or be provided with disinfectant as they return from the playground.

ARE YOU DOING EXTRA CLEANING IN PREPARATION OF KIDS COMING BACK TO SCHOOL?

Yes, as part of the normal summer deep cleaning process. After the 2009 SARS outbreak, we developed a more vigilant process to ensure proper disinfecting and sanitizing; in accordance with CDC, Florida Health Department and Department of Education Sanitation guidelines.

WILL MY CHILD’S CLASSROOM

BE SHUT DOWN IF A CHILD IN THE CLASSROOM TESTS POSITIVE FOR COVID-19?

The District will be following CDC guidelines on cleaning and disinfecting rooms where a positive case has been found. Students or staff members will be asked to quarantine by the Department of Health as necessary.

WILL MY CHILD’S CLASSROOM BE CLEANED MORE OFTEN DURING THE SCHOOL DAY?

Yes. Currently, CDC guidelines recommends to clean, sanitize and disinfect frequently-touched surfaces in the classrooms, daily. At this time, the District is developing a process to take the extra step of sanitizing by using a germicidal disinfectant to clean and sanitize more often.
