FLORIDA GAS TRANSMISSION COMPANY, LLC
Proposed Project in Calhoun, Jefferson, Santa Rosa, Gadsden, Taylor , and Gilchrist Counties, Florida

The Filing – January 29, 2021

On January 29, 2021, Florida Gas Transmission Company, LLC (FGT) filed an application for a Certificate of Public Convenience and Necessity with the Federal Energy Regulatory Commission (FERC) to construct additional facilities to its existing interstate natural gas pipeline system. The project has been designated as the Big Bend Project and the application has been assigned Docket No. CP21-45-000 at the FERC.

Florida Gas Transmission – Your clean energy partner

FGT is Florida's leader and trusted partner in providing clean energy solutions, safely and reliably. FGT is an interstate pipeline company with offices in Maitland, Florida and Houston, Texas, and has employees at field offices along our vast pipeline system. FGT operates an approximately 5,362-mile natural gas pipeline system that runs from South Texas to Homestead, Florida. FGT has been supplying the majority of Florida's natural gas needs for over 50 years through an extensive network of underground pipelines.

Big Bend Project – Its scope and purpose

The Big Bend Project refers to FGT's proposal to add (i) approximately 1.7 miles of 36-inch mainline loop extension in Calhoun County, Florida, (ii) approximately 1.5 miles of 36-inch mainline loop extension in Jefferson County, Florida, (iii) remove and relocate the existing 36-inch mainline loop pig receivers to new pig receiver sites at the terminus of each proposed loop extension, (iv) uprate an existing natural gas-fired compressor turbine unit at FGT's existing Compressor Station ("CS") 12, CS 14, CS 15, and CS 24, located in Santa Rosa, Gadsden, Taylor, and Gilchrist Counties, respectively, all located in Florida. (No Compressor Station activities will take place outside the fenced area of FGT's Compressor Stations.)

FGT proposes to commence construction in August 2022 in order to meet the customer's requested in-service date for the project of August 1, 2023.

The purpose of the Big Bend Project is to provide additional firm transportation capacity up to 29,000 million British thermal units per day (MMBtu/d) of natural gas for Peoples Gas System (PGS), a division of TECO, to delivery points at PGS-Big Bend, TECO – Bayside, PGS Oak Grove, PGS - Tampa Northwest, and PGS - Tampa East , all located in Hillsborough County, Florida, to be utilized by PGS for current and future electric generation requirements.

Planned construction in your area.

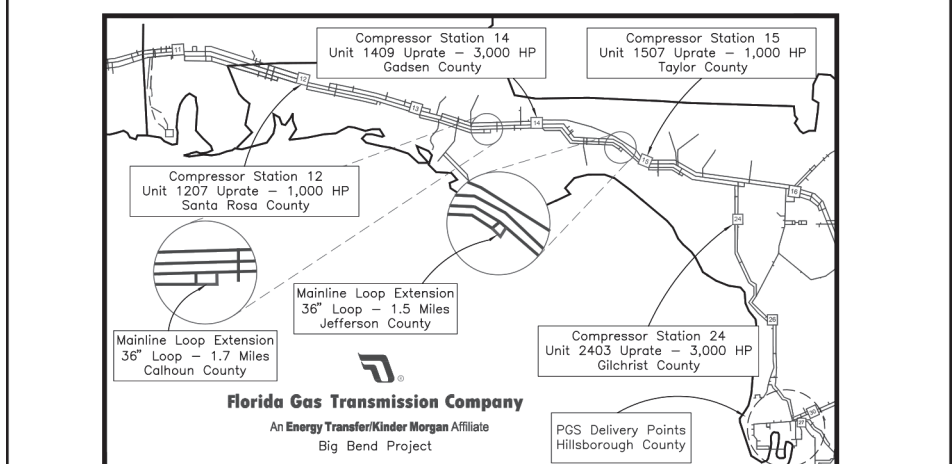

Please refer to the map for the location of facilities to be constructed in your area.
