MANAGEMENT, OFFICE OF PERMITTING AND COMPLIANCE DRAFT AIR PERMIT NO. 1230001-103-AC
Foley Cellulose LLC, Foley Mill Taylor County, Florida

project file includes the Draft Permit, the Technical Evaluation and Preliminary Determination, the application and information submitted by the applicant (exclusive of confidential records under Section 403.111, F.S.). Interested persons may contact the Permitting Authority's project engineer for additional information at the address and phone number listed above. In addition, electronic copies of these documents are available on the following web site by entering the draft permit number: <https://fddep.dep.state.fl.us/air/emission/apds/default.asp>.

Permitting Authority shall revise the Draft Permit and require, if applicable, another Public Notice. All comments filed will be made available for public inspection. Petitions: A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57, F.S. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), F.S., must be filed within 14 days of publication of the Public Notice or receipt of a written notice, whichever occurs first. Under Section 120.60(3), F.S., however, any person who asked the Permitting Authority for notice of agency action may file a petition within 14 days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above, at the time of filing. A petition for administrative hearing must contain the information set forth below and must be filed (received) with the Agency Clerk in the Office of General Counsel, 3900 Commonwealth Boulevard, MS 35, Tallahassee, Florida 32399-3000, Agency_Clerk@dep.state.fl.us, before the deadline. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention (in a proceeding initiated by another

BADCOCK HOME FURNITURE AND MORE is hiring for two positions: Full-time salesperson and delivery/warehouse person (must be 21 or older for delivery). Drug testing/background check. Apply in person. No phone calls.

Applicant: The applicant for this project is Foley Cellulose LLC. The applicant's authorized representative and mailing address is: Thomas Kicklighter, Vice President and General Manager, Georgia Pacific, Foley Cellulose, Perry, Florida 32348. Facility Location: Foley Cellulose LLC operates the existing Foley Mill, which is in Taylor County at One Buckeye Drive in Perry, Florida. Project: The Foley Mill manufactures bleached market pulps and dissolving cellulose pulps. The dissolving cellulose pulp produced at this plant is used in products such as food casings, rayon industrial cord, acetate fibers and plastics, as well as thickeners for personal care products, food and pharmaceuticals. The bleached market pulps are used in products such as disposable diapers, feminine hygiene products and incontinence products. Major activities include wood handling facility, pulping system, purification, chemical recovery, powerhouse, drying/converting/warehouse, and associated processes and equipment. On May 27, 2021, the Foley Mill submitted an air construction permit application to replace the No. 1 Blow Tank (under emissions unit No. 046, designated for the Pulping System) for a larger blow tank that would increase the total volume by approximately 122,230 gallons. The Foley Mill states that although the new blow tank will be larger than the existing unit, there will be no increase in emissions as the No. 1 Blow Tank is not the bottleneck of the process. The larger size is being incorporated to improve quality and safety.

Notice of Intent to Issue Air Permit: The Permitting Authority gives notice of its intent to issue an air construction permit to the applicant for the project described above. The applicant has provided reasonable assurance that operation of proposed equipment will not adversely impact air quality and that the project will comply with all applicable provisions of Chapters 62-4, 62-204, 62-210, 62-212, 62-296 and 62-297, F.A.C. The Permitting Authority will issue a Final Permit in accordance with the conditions of the proposed Draft Permit unless a timely petition for an administrative hearing is filed under Sections 120.569 and 120.57, F.S. or unless public comment received in accordance with this notice results in a different decision or a significant change of terms or conditions.

Comments: The Permitting Authority will accept written comments concerning the proposed Draft Permit for a period of 14 days from the date of publication of the Public Notice. Written comments must be received by the Permitting Authority by close of business (5:00 p.m.) on or before the end of this 14-day period. If written comments received result in a significant change to the Draft Permit, the
