The sale will take place at 3498 Hwy 19 S. Suite 1, Perry, Fla., 32348.

PUBLIC NOTICE OF INTENT TO ISSUE AIR PERMIT

Florida Department of Environmental Protection Division of Air Resource Management, Office of Permitting and Compliance Draft Air Permit No. 1230001-105-AC Foley Cellulose LLC, Foley Mill Taylor County, Florida Applicant: The applicant for this project is Foley Cellulose LL. The applicant's authorized representative and mailing address is: Thomas Kicklighter, V.P. and General Manager, Foley Cellulose LLC, Foley Mill, One Buckeye Drive, Perry, Florida, 32348.

Facility Location: Foley Cellulose LLC operates the existing Foley Mill, which is in Taylor County at One Buckeye Drive in Perry, Florida. Project: The Foley Mill is an existing softwood Kraft Process Pulp Mill that manufactures bleached market pulps and dissolving cellulose pulps consisting of the following major activities: two Kraft pulp mills, chemical recovery, causticizing, purification (i.e. bleaching), papermaking, woodyard, and utility operations.

The purpose of this project is to authorize the installation and operation of an additional body parallel to the existing two bodies (1B and 1C) in the No. 5 Black Liquor Evaporator since the heating surface of the 1C body was damaged due to corrosion and some of the heat transfer area was removed from surface. The additional parallel body (1BC) will be used to maintain operations and will only be used in case of any future deterioration of the heat transfer areas in the existing bodies. Only two of the three bodies will operate at one time. The emission increases were minimal for this project, 1.23 tons per year (TPY) of sulfur dioxide (SO2), 2.17 TPY of volatile organic compounds (VOC), 0.07 TPY for both total reduce sulfur (TRS) and hydrogen sulfide (H2S). However, this project is an extension of Permit No. 1230001-065-AC and as revised in Permit Nos. 1230001-068-AC, 071-AC, and 083-AC. Therefore, the projects emission increases were combined: 29.37 TPY of carbon monoxide; 8.33 TPY of nitrogen oxide; 21.52 TPY of particulate matter (PM); 11.14 TPY of PM with a mean diameter of 10 microns or less (PM10); 4.11 TPY of PM2.5; 7.10 TPY of SO2; 26.65 TPY of VOC; 8.36 TPY of TRS; and 2.65 TPY of H2S. To provide reasonable assurance that the project does not trigger Prevention of Significant Deterioration (PSD) review pursuant to Rule 62-212.400, Florida Administrative Code, the applicant is required to continue to monitor and report for a 10-year period of the actual emissions for SO2. In addition, monitoring of emissions of PM, PM10, PM2.5 and TRS were added to the current actual emissions reporting requirement for all affected sources.

Permitting Authority: Applications for air construction permits are subject to review in accordance with the provisions of Chapter 403, Florida Statutes (F.S.) and Chapters 62-4, 62-210 and 62-212 of the Florida Administrative Code (F.A.C.). The proposed project is not exempt from air permitting requirements and an air permit is required to perform the proposed work. The Permitting Authority responsible for making a permit determination for this project is the Office of Permitting and Compliance in the Department of Environmental Protection's Division of Air

Resource Management. The Permitting Authority's physical address is: 2600 Blair Stone Road, Tallahassee, Florida. The Permitting Authority's mailing address is: 2600 Blair Stone Road, MS #5505, Tallahassee, Florida 32399-2400. The Permitting Authority's phone number is 850-717-9000. Project File: A complete project file is available for public inspection during the normal business hours of 8:00 a.m. to 5:00 p.m., Monday through Friday (except legal holidays), at the address indicated above for the Permitting Authority. The complete project file includes the Draft Permit, the Technical Evaluation and Preliminary Determination,

the application and information submitted by the applicant (exclusive of confidential records under Section 403.111, F.S.). Interested persons may contact the Permitting Authority's project engineer for additional information at the address and phone number listed above. In addition, electronic copies of these documents are available on the following web site by entering the draft permit number: https://fddep.dep.state.fl.us/air/emission/apds/default.asp.

Notice of Intent to Issue Air Permit: The Permitting Authority gives notice of its intent to issue an air construction permit to the applicant for the project described above. The

applicant has provided reasonable assurance that operation of proposed equipment will not adversely impact air quality and that the project will comply with all applicable provisions of Chapters 62-4, 62-204, 62-210, 62-212, 62-296 and 62-297, F.A.C. The Permitting Authority will issue a Final Permit in accordance with the conditions of the proposed Draft Permit unless a timely petition for an administrative hearing is filed under Sections 120.569 and 120.57, F.S. or unless public comment received in accordance with this notice results in a different decision or a significant change of terms or conditions.
