PUBLIC NOTICE OF INTENT TO ISSUE AIR PERMIT
Florida Department of Environmental Protection Division of Air Resource Management, Permit Review Section Draft Air Permit No. 1230001-121-AC Foley Cellulose LLC, Foley Mill Taylor County, Florida
Applicant: The applicant for this project is Foley Cellulose LLC. The applicant's responsible official and mailing address are: Thomas Pazdera, V.P. and General Manager, Foley Cellulose LLC, One Buckeye Drive, Perry, Florida 32348. Facility Location: The applicant operates the existing Foley Mill, which is in Taylor County at One Buckeye Drive in Perry, Florida. Project: The Foley Mill is an existing softwood Kraft Process Pulp Mill that manufactures bleached market pulps and dissolving cellulose pulps consisting of the following major activities: two Kraft pulp mills, chemical recovery, causticizing, purification (i.e., bleaching), papermaking, woodyard, and utility operations. The purpose of this permitting project is to authorize the use of white liquor as an alternative scrubbing liquid in the total reduced sulfur (TRS) pre-scrubber used to control emissions of TRS and sulfur dioxide (SO₂) in the No. 1 Power Boiler and No. 1 Bark Boiler when low-volume, high-concentration non-condensable gases are being combusted in the boilers. The TRS pre-scrubber will be tested to meet the required control efficiency of 50% or more of TRS emissions. Also, as part of Florida's Regional Haze Plan, this project reduces SO₂ emissions from the existing mill by: 1) primarily firing natural gas in No. 1 Power Boiler and Nos. 1 and 2 Bark Boilers; 2) limiting the sulfur content of No. 6 fuel oil to 1.02% by weight; 3) remove tail oil from the fuel slate from the No. 1 Power Boiler, Nos. 1 and 2 Bark Boilers, and Nos. 2, 3 and 4 Recovery Furnaces; 4) maintain the appropriate pH level in the existing wet scrubber on the No. 1 Bark Boiler at all times that LVHC NCG or oil is fired in the Boiler; and 5) establish an SO₂ emissions cap for the Nos. 2, 3, and 4 Recovery Furnaces of 3,200.0 tons per consecutive 12 months from January 1, 2024, onwards.
This project did not cause an increase in any emissions of pollutants from the facility. In fact, emissions of SO₂ should be reduced by coming into compliance with Florida's Regional Haze Plan. Permitting Authority: Applications for air construction permits are subject to review in accordance with the provisions of Chapter 403, Florida Statutes (F.S.) and Chapters 62-4, 62-210 and 62-212 of the Florida Administrative Code (F.A.C.). The proposed project is not exempt from air permitting requirements and an air permit is required to perform the proposed work. The Permitting Authority responsible for making a permit determination for this project is the Permit Review Section in the Department of Environmental Protection's Division of Air Resource Management. The Permitting Authority's physical address is: 2600 Blair Stone Road, Tallahassee, Florida. The Permitting Authority's mailing address is: 2600 Blair Stone Road, MS #5505, Tallahassee, Florida 32399-2400. The Permitting Authority's phone number is 850-717-9000.
Project File: A complete project file is available for public inspection during the normal business hours of 8:00 a.m. to 5:00 p.m., Monday through Friday (except legal holidays), at the address indicated above for the Permitting Authority. The complete project file includes the Draft Permit, the Technical Evaluation and Preliminary Determination, the application and information submitted by the applicant (exclusive of confidential records under Section 403.111, F.S.). Interested persons may contact the Permitting Authority's project engineer for additional information at the address and phone number listed above. In addition, electronic copies of these documents are available on the following web site by entering the draft permit number: <https://fddep.dep.state.fl.us/air/emission/apds/default.asp>.

Notice of Intent to Issue Air Permit: The Permitting Authority gives notice of its intent to issue an air construction permit to the applicant for the project described above. The applicant has provided reasonable assurance that operation of proposed equipment will not adversely impact air quality and that the project will comply with all applicable provisions of Chapters 62-4, 62-204, 62-210, 62-212, 62-296 and 62-297, F.A.C. The Permitting Authority will issue a Final Permit in accordance with the conditions of the proposed Draft Permit unless a timely petition for an administrative hearing is filed under Sections 120.569 and 120.57, F.S. or unless public comment received in accordance with this notice results in a different decision or a significant change of terms or conditions. Comments: The Permitting Authority will accept written comments concerning the proposed Draft Permit for a period of 14 days from the date of publication of the Public Notice. Written comments must be received by the Permitting Authority by close of business (5:00 p.m.) on or before the end of this 14-day period to the above address and electronically to David Read at David.Read@FloridaDEP.gov. If written comments received result in a significant change to the Draft Permit, the Permitting Authority shall revise the Draft Permit and require, if applicable, another Public Notice. All comments filed will be made available for public inspection. Petitions: A person whose substantial interests are affected by the proposed permitting decision may petition for an administrative hearing in accordance with Sections 120.569 and 120.57, F.S. Petitions filed by any persons other than those entitled to written notice under Section 120.60(3), F.S., must be filed within 14 days of publication of the Public Notice or receipt of a written notice, whichever occurs first. Under Section 120.60(3), F.S., however, any person who asked the Permitting Authority for notice of agency action may file a petition within 14 days of receipt of that notice, regardless of the date of publication. A petitioner shall mail a copy of the petition to the applicant at the address indicated above, at the time of filing. A petition for administrative hearing must contain the information set forth below and must be filed (received) with the Agency Clerk in the Office of General Counsel, 3900 Commonwealth Boulevard, MS 35, Tallahassee, Florida 32399-3000, Agency_Clerk@dep.state.fl.us, before the deadline. The failure of any person to file a petition within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under Sections 120.569 and 120.57, F.S., or to intervene in this proceeding and participate as a party to it. Any subsequent intervention (in a proceeding initiated by another party) will be only at the approval of the presiding officer upon the filing of a motion in compliance with Rule 28-106.205, F.A.C. A petition that disputes the material facts on which the Permitting Authority's action is based must contain the following information: (a) The name and address of each agency affected and each agency's file or identification number, if known; (b) The name, address, any email address, telephone number and any facsimile number of the

petitioner; the name, address any email address, telephone number, and any facsimile number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests will be affected by the agency determination; (c) A statement of when and how each petitioner received notice of the agency action or proposed decision; (d) A statement of all disputed issues of material fact. If there are none, the petition must so state; (e) A concise statement of the ultimate facts alleged, including the specific facts the petitioner contends warrant reversal or modification of the agency's proposed action; (f) A statement of the specific rules

or statutes the petitioner contends require reversal or modification of the agency's proposed action including an explanation of how the alleged facts relate to the specific rules or statutes; and, (g) A statement of the relief sought by the petitioner, stating precisely the action the petitioner wishes the agency to take with respect to the agency's proposed action. A petition that does not dispute the material facts upon which the Permitting Authority's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by Rule 28-106.301, F.A.C. Because the administrative hearing process is designed to formulate
